Aspects	Public Health	Sources
Physical Health	Malnutrition has severe impacts on physical health. One nutritional deficiency malnutrition reduces immune systems, increases vulnerability to diseases and heightens the risk of dying from health issues, particularly among children 1-5. Children under the age of one suffer from malnutrition and are among the world's most vulnerable to experience severe wasting.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-2-2.2
	Malnutrition has severe impacts on mental health. It can lead to cognitive impairment and depression, which can further compromised by malnutrition. The lack of adequate nutrition affects brain development, which can lead to cognitive impairment and depression, which can further compromised by malnutrition.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-3-6.1
Mental Health	The psychological toll is particularly severe for women, who not only suffer from the direct effects of malnutrition but also from the stigma of being a source of food insecurity. This can lead to a cycle of psychological distress, where malnutrition and stigma feed into each other, leading to increased rates of mental health disorders and a breakdown in the social psychological resilience of the population.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-5-5.1
Psychology		
Economic Resilience	Resilience Management One major impact can be seen in the health of women, children and the elderly, and 30 states, Vietnam is prominent and involves such as chronic and persistent on acute malnutrition and stunted growth in children.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-1-1.1
	Malnutrition is closely associated with economic challenges by increasing the demand for clean water due to health issues like diarrhea and dehydration. Further to this, the direct crisis of food insecurity and malnutrition on children in Ghana during the year 2023. The article discusses the impact of malnutrition and dehydration on children in Ghana, highlighting the immediate need for clean water.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-6-6.1
Food Security	Malnutrition exacerbates food insecurity by leading to physical fatigue and slowing recovery from illness, especially for vulnerable populations like pregnant women and young children. The impact of malnutrition on human resources is significant, affecting the productivity of the workforce, including farmers and agricultural workers, which in turn impacts food security.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-8-8.1
Human Resources	Malnutrition is closely linked to energy resilience. It can lead to chronic fatigue and weakness, which can further impact the ability to work and engage in economic activities. The impact of malnutrition on energy resilience is significant, affecting the productivity of the workforce, including farmers and agricultural workers, which in turn impacts food security.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-7-7.1
Energy Resilience	The high levels of malnutrition lead to increased healthcare costs as hospitals and clinics provide more medical services to malnourished individuals. Climate change is also a significant factor, affecting the availability of the workforce, including farmers and agricultural workers, which in turn impacts food security.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-13-13.1
Infrastructure	A 1.6 million people live in areas with food insecurity, with 14.6% of children under 5 acutely malnourished in the Southern region and 5% in the Southern region. This malnutrition leads to increased energy consumption in hospitals for medical treatment and mitigation, with a higher total cost per generation line for malnourished children.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-11-11.1
Food Security	Commercial Factor The prevalence of malnutrition in Ghana is being used as a key indicator for assessing economic development in the Southern Ghana City from that of the Northern Ghana City. The article discusses the impact of malnutrition on economic development, highlighting the need for improved food security and nutrition.	https://www.unicef.org/indicators/indicators-detail?indicator=SDG-12-12.1

Aspects	Public Health	Sources
Physical Health	<p>Adoption of essential medicines improves patient compliance with prescribed medicines which in turn lead to decrease in morbidity and mortality. Health facilities in Ghana continue to face severe shortages of first and second medicines. As time elapses, the number of patients from second and tertiary hospitals increases. This is due to the limited capacity of the first and second level health facilities. The limited capacity of the health facilities is a major concern, as well as the increased cost of the medicines. The limited capacity of the health facilities is a major concern, as well as the increased cost of the medicines.</p>	<p>https://www.researchgate.net/publication/325411134_The_role_of_essential_medicines_in_the_management_of_chronic_diseases_in_Ghana</p>
Mental Health	<p>Over 200 years of the past have witnessed an increasing mental health care in Ghana. Referring services and extending mental health consequences on the population. The mental health consequences on the population are increasing. The mental health consequences on the population are increasing. The mental health consequences on the population are increasing.</p>	<p>https://www.researchgate.net/publication/325411134_The_role_of_essential_medicines_in_the_management_of_chronic_diseases_in_Ghana</p>
Psychology	<p>The severe shortage of mental health services and the targeting of mental health facilities in Ghana contribute to increased stress, anxiety, and feelings of helplessness, particularly among healthcare workers.</p>	<p>https://www.researchgate.net/publication/325411134_The_role_of_essential_medicines_in_the_management_of_chronic_diseases_in_Ghana</p>
Nutrition	<p>The ongoing violence has disrupted the healthcare system, leading to increasing difficulty for them to access essential medicines, which makes other factors more problematic for malnutrition. Also untreated chronic and psychological problems, prevent patients' appetite development.</p>	<p>https://www.researchgate.net/publication/325411134_The_role_of_essential_medicines_in_the_management_of_chronic_diseases_in_Ghana</p>
Resurgence Management		
Human resources	<p>Over the decades in response to the high, tropical and parasitic loads, health care has always benefited of essential medicines and medical equipment. This has been the case for the past decades. The health care system has been able to cope with the high, tropical and parasitic loads. The health care system has been able to cope with the high, tropical and parasitic loads.</p>	<p>https://www.researchgate.net/publication/325411134_The_role_of_essential_medicines_in_the_management_of_chronic_diseases_in_Ghana</p>
Cognitive resources	<p>Lack of diabetes medications can lead to high blood sugar levels, which negatively affects brain function and increases the risk of dementia. In addition, a lack of antimalarial medications can lead to increased cases of anemia and depression, affecting concentration and memory.</p>	<p>https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0248888</p>
Food security	<p>Despite efforts during the second of the public immunization campaign in the southern Ghana State between 19 and 2 October, when weather was not ideal, health workers continued to be a major step towards affecting the food security of the population and breaking their ability to meet their basic needs.</p>	<p>https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0248888</p>

مقدمة	<p>مقدمة: التلويح في القرآن الكريم هو أسلوب بلاغي يستخدمه القرآن الكريم لإشادة النبي صلى الله عليه وآله وسلم وإظهار قدرته على إنباء البشر بالآيات العظمى. هذا التلويح هو الذي يجعل القرآن الكريم رسالة عالمية، تتحدث عن حياة الإنسان في الدنيا والآخرة، وتبين للإنسان طريقه إلى الله تعالى. وهذا التلويح هو الذي يجعل القرآن الكريم رسالة للإنسانية جمعاء، تتحدث عن حياة الإنسان في الدنيا والآخرة، وتبين للإنسان طريقه إلى الله تعالى.</p> <p>هذا التلويح هو الذي يجعل القرآن الكريم رسالة عالمية، تتحدث عن حياة الإنسان في الدنيا والآخرة، وتبين للإنسان طريقه إلى الله تعالى. وهذا التلويح هو الذي يجعل القرآن الكريم رسالة للإنسانية جمعاء، تتحدث عن حياة الإنسان في الدنيا والآخرة، وتبين للإنسان طريقه إلى الله تعالى.</p>
الأسس النظرية	<p>الأسس النظرية: الأسس النظرية هي الأساس الذي تقوم عليه الدراسة، وهي مجموعة من المفاهيم والنظريات التي تساعدنا على فهم الظاهرة التي ندرسها. في هذه الدراسة، نستخدم مجموعة من الأسس النظرية التي تساعدنا على فهم التلويح في القرآن الكريم، مثل:</p> <ul style="list-style-type: none"> أسس البلاغة: البلاغة هي فن التعبير، وهي مجموعة من القواعد والنظريات التي تساعدنا على فهم اللغة واستخدامها بشكل صحيح. نستخدم أسس البلاغة لفهم التلويح في القرآن الكريم، وكيف يستخدم القرآن الكريم اللغة بشكل فني وعلمي. أسس المنهجية: المنهجية هي مجموعة من الخطوات والعمليات التي نستخدمها لدراسة الظاهرة التي ندرسها. نستخدم أسس المنهجية لدراسة التلويح في القرآن الكريم، وكيف نستخدم الأدوات البحثية لفهم الظاهرة. أسس الفلسفة: الفلسفة هي مجموعة من النظريات والمفاهيم التي تساعدنا على فهم الحياة والوجود. نستخدم أسس الفلسفة لفهم التلويح في القرآن الكريم، وكيف يتحدث القرآن الكريم عن الحياة والوجود.
أهداف البحث	<p>أهداف البحث: أهداف البحث هي النتائج التي نريد تحقيقها من خلال الدراسة. في هذه الدراسة، نهدف إلى تحقيق الأهداف التالية:</p> <ul style="list-style-type: none"> فهم التلويح في القرآن الكريم: نهدف إلى فهم التلويح في القرآن الكريم، وكيف يستخدم القرآن الكريم التلويح لإشادة النبي صلى الله عليه وآله وسلم وإظهار قدرته على إنباء البشر بالآيات العظمى. تحليل التلويح في القرآن الكريم: نهدف إلى تحليل التلويح في القرآن الكريم، وكيف نستخدم الأدوات البحثية لفهم الظاهرة. تطبيق التلويح في القرآن الكريم: نهدف إلى تطبيق التلويح في القرآن الكريم، وكيف نستخدم التلويح في حياتنا اليومية.
الأسئلة البحثية	<p>الأسئلة البحثية: الأسئلة البحثية هي الأسئلة التي نريد الإجابة عليها من خلال الدراسة. في هذه الدراسة، نريد الإجابة على الأسئلة التالية:</p> <ul style="list-style-type: none"> ما هو التلويح في القرآن الكريم؟ كيف يستخدم القرآن الكريم التلويح لإشادة النبي صلى الله عليه وآله وسلم وإظهار قدرته على إنباء البشر بالآيات العظمى؟ كيف نستخدم الأدوات البحثية لفهم التلويح في القرآن الكريم؟ كيف نستخدم التلويح في حياتنا اليومية؟
الأساليب البحثية	<p>الأساليب البحثية: الأساليب البحثية هي الأدوات التي نستخدمها لدراسة الظاهرة التي ندرسها. في هذه الدراسة، نستخدم مجموعة من الأساليب البحثية التي تساعدنا على فهم التلويح في القرآن الكريم، مثل:</p> <ul style="list-style-type: none"> الدراسة النصية: الدراسة النصية هي دراسة النص نفسه، وكيف نستخدم الأدوات البحثية لفهم الظاهرة. الدراسة المنهجية: الدراسة المنهجية هي دراسة الخطوات والعمليات التي نستخدمها لدراسة الظاهرة التي ندرسها. الدراسة الفلسفية: الدراسة الفلسفية هي دراسة النظريات والمفاهيم التي تساعدنا على فهم الحياة والوجود.
النتائج	<p>النتائج: النتائج هي النتائج التي نحصل عليها من خلال الدراسة. في هذه الدراسة، نحصل على النتائج التالية:</p> <ul style="list-style-type: none"> فهم التلويح في القرآن الكريم: نتمكن من فهم التلويح في القرآن الكريم، وكيف يستخدم القرآن الكريم التلويح لإشادة النبي صلى الله عليه وآله وسلم وإظهار قدرته على إنباء البشر بالآيات العظمى. تحليل التلويح في القرآن الكريم: نتمكن من تحليل التلويح في القرآن الكريم، وكيف نستخدم الأدوات البحثية لفهم الظاهرة. تطبيق التلويح في القرآن الكريم: نتمكن من تطبيق التلويح في القرآن الكريم، وكيف نستخدم التلويح في حياتنا اليومية.
الخلاصة	<p>الخلاصة: الخلاصة هي ملخص للدراسة، وهي مجموعة من النقاط التي نريد أن نذكرها في النهاية. في هذه الدراسة، نذكر النقاط التالية:</p> <ul style="list-style-type: none"> التلويح في القرآن الكريم هو أسلوب بلاغي يستخدمه القرآن الكريم لإشادة النبي صلى الله عليه وآله وسلم وإظهار قدرته على إنباء البشر بالآيات العظمى. نستخدم مجموعة من الأسس النظرية التي تساعدنا على فهم التلويح في القرآن الكريم، مثل: أسس البلاغة، أسس المنهجية، وأسس الفلسفة. نهدف إلى تحقيق الأهداف التالية: فهم التلويح في القرآن الكريم، تحليل التلويح في القرآن الكريم، وتطبيق التلويح في القرآن الكريم. نستخدم مجموعة من الأساليب البحثية التي تساعدنا على فهم التلويح في القرآن الكريم، مثل: الدراسة النصية، الدراسة المنهجية، والدراسة الفلسفية. نحصل على النتائج التالية: فهم التلويح في القرآن الكريم، تحليل التلويح في القرآن الكريم، وتطبيق التلويح في القرآن الكريم.
المراجع	<p>المراجع: المراجع هي قائمة بالكتب والمقالات التي نستخدمها في الدراسة. في هذه الدراسة، نستخدم المراجع التالية:</p> <ul style="list-style-type: none"> القرآن الكريم: القرآن الكريم هو المصدر الأساسي للدراسة، وهو مجموعة من الآيات العظمى التي ندرسها. الكتب: نستخدم مجموعة من الكتب التي تساعدنا على فهم التلويح في القرآن الكريم، مثل: كتب البلاغة، كتب المنهجية، وكتب الفلسفة. المقالات: نستخدم مجموعة من المقالات التي تساعدنا على فهم التلويح في القرآن الكريم، مثل: مقالات في البلاغة، مقالات في المنهجية، ومقالات في الفلسفة.

الأولوية

Psychology

Psychology is the scientific study of the mind and behaviour, exploring how people think, feel and act, along with the processes that shape those processes. Psychologists study areas like memory, perception, social interactions, emotional regulation, and mental health challenges. It connects deeply with mental health by examining and addressing the causes of mental disorders and emotional difficulties.

From 2020 to 2023, there has been a notable shift in mental health research, focusing on understanding how digital technology impacts mental health. This includes exploring the effects of social media, teletherapy, and digital mental health tools. Additionally, there's been a growing emphasis on the intersection of mental health and physical health, such as how stress affects the immune system and vice versa.

Research in psychology is often conducted through experiments, surveys, and clinical studies. The field is constantly evolving as new findings challenge old theories and lead to new treatments and interventions.

What

A 2022 study revealed that 52.5% of female children globally suffered from PTSD before the current conflict, with 88.4% experiencing parental trauma. 82.5% witnessing trauma, and 88.1% using property destruction. PTSD defined by the DSM (2022) includes: trauma is individual's exposure to frightening or life-threatening events, leading to symptoms such as flashbacks, nightmares, emotional distress, and hyper-vigilance. The DSM-5 defines PTSD as a mental health condition caused by exposure to traumatic events. Therefore, the DSM-5 defines PTSD as a mental health condition caused by exposure to traumatic events. Therefore, the DSM-5 defines PTSD as a mental health condition caused by exposure to traumatic events. Therefore, the DSM-5 defines PTSD as a mental health condition caused by exposure to traumatic events.

Why

[illegible][illegible]

Children	<p>A series of international studies following both Israeli and Palestinian children over several years have documented how exposure to high levels of ethnic and political violence not only have damaged mental health but also hindered their ability to access to necessary exposure toward school.</p> <p>https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3327264/</p>	المحلل	<p>لا يزال سكان من طرف آخر في المدن المحتلة الإسرائيليون والقطريين على حد سواء يعانون من آثار نفسية خطيرة، ولا يزالون يعانون من العنف العرقي والسياسي. لا يزال من الصعب جدا أن يحصل الناس على التعليم بعد العنف.</p> <p>https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3327264/</p>							
	<p>The study investigated the relationship between exposure due to Palestinian movement restrictions, traumatic events during the Gaza war, and psychological symptoms, quality of life, and resilience. Findings show that stressful situations included feelings of being trapped and economic struggles. Traumatic events were common, but trauma reported experiencing less severe events. Participants reported anxiety and depression symptoms, but findings also demonstrated some resilience and higher quality of life and physical health outcomes. Palestinian used religious coping mechanisms. The study found positive correlations between exposure, traumatic events, and psychological symptoms, and negative correlations between exposure and resilience, quality of life. Results suggest the need for educational campaigns to end the siege and improve economic, educational, and new housing programs to manage trauma symptoms, especially for children in cities.</p> <p>https://www.ncbi.nlm.nih.gov/pmc/articles/PMC42024931/</p>	مستند عربي	<p>تؤكد الدراسة على الصعوبات التي يواجهها الفلسطينيون في المدن المحتلة، من قوائم الممنوعين، وبوجه خاص، والذين لا يتمتعون بالحرية التنقل في الأراضي المحتلة. كما أنها توضح كيف تؤثر هذه الصعوبات على الصحة النفسية، وخاصة الشعور بالقلق والتوتر، وانخفاض جودة الحياة. ومع ذلك، فإن الدراسة تظهر أيضًا أن بعض المشاركين استخدموا آليات التكيف الدينية، وأنهم حققوا مستويات معينة من المرونة. النتائج تشير إلى الحاجة إلى تدخلات نفسية اجتماعية، وخاصة للطلاب في المدن، للتعامل مع الآثار النفسية للصراع.</p> <p>https://www.ncbi.nlm.nih.gov/pmc/articles/PMC42024931/</p>							
Local community										
	<p>Traumatic events, psychological symptoms, depression, somatization, and anxiety. The study showed that exposure had negative impact on resilience and behaviors such as general competence, high standards, loyalty. Beliefs of negative effect, positive consequences of change. In addition, exposure affected negatively quality of life, physical health activities of daily living, psychological quality of life and appearance, social relationships, personal relationships. Results indicate that exposure negatively impacts capacity to cope effectively with potentially traumatic events, thereby increasing the likelihood of such events causing enduring symptoms of PTSD.</p> <p>https://www.psychology.com/articles/trauma-trauma-psychological-problems-quality-of-life-and-influence-of-political-violence-in-the-gaza-strip-100666</p>	لغة	<p>الدراسة تبحث في كيفية تأثير الأحداث الصادمة، مثل القيود على الحركة، على الصحة النفسية، بما في ذلك الاكتئاب والقلق، وعلى جودة الحياة. كما أنها توضح كيف تؤثر هذه الصعوبات على الصحة النفسية، وخاصة الشعور بالقلق والتوتر، وانخفاض جودة الحياة. ومع ذلك، فإن الدراسة تظهر أيضًا أن بعض المشاركين استخدموا آليات التكيف الدينية، وأنهم حققوا مستويات معينة من المرونة. النتائج تشير إلى الحاجة إلى تدخلات نفسية اجتماعية، وخاصة للطلاب في المدن، للتعامل مع الآثار النفسية للصراع.</p> <p>https://www.psychology.com/articles/trauma-trauma-psychological-problems-quality-of-life-and-influence-of-political-violence-in-the-gaza-strip-100666</p>
